THE DAILY CLARION.

VOL. IV.

JACKSON, MISS., WEDNESDAY, SEPTEMBER 5, 1866.

EDUCATIONAL. CENTENARY PEMALE COLLEGE.

Summerfield, Alabama. THE next scholastic year begins Monday, October 1st, 1866. A quarter of a century in successful operation, with hundreds of cultivated daughters in Alabama, Mississippi, Louisiana and Texas, and under the immediate care and patronage of the Mobile and Montgomery Conference, this Institution can afford, and is determined, to maintain a high standard of scholarship.

Only experienced and skillful educators are employed by the Trustees. Among the recent additions to the Faculty, are two gentlemen, for a series of years Professors in the State for a series of years Professors in the State University.
Those desiring REALLY THOROUGH culture for their daughters, will do well to investigate the claims of this Institution. For particulars, or a circular, apply to Rev. R. K. Hargrove, President.

A. H. MITCHELL. Prest, of Board. Wanted, BY a Lady of fifteen or sixteen years experience, as a teacher of Music, English and French, a situation, either as Principal of a

pear on a bale of cotton.

The hoop for the button is punched with two holes at one end and fifteen at the other. The band has only to be drawn tight, the holes in the two ends to be brought together.—the two bole end on top—and the button inserted. One button will answer, but it is better to insert two. but it is better to insert two.

With the Buckle Tie, one end of the hoop is fastened to one section of the Buckle, the other end is inserted in the other section, and simply shoved through it under the other end as long as there is any slack. A bite on the buckle holds it securely to to its place. lengths of 10, 10s and 11 feet. Ten feet are most generally used, but 10s and 11 are sometimes required for large bales. The nuckles are fastened to the hoops, the buttons will be put up in small boxes. The Weight is About 10 Pounds to the Bale of

The advantages of iron over rope for baling cotton style. The advantages of fron over rope for haing doctors are now universally acknowledged. It holds the bale in a much smaller compass; is applied and fastoned with as much facility, both in the country pressing and the recompressing at the sea ports; lessens immensely the risk from fire, is stronger, and its strength is not impaired by time and exposure as is that of rope. This last advantage has beed strikingly manifested during the war. Thousands of bales of Cetton have been lost by the rotting and breaking of Rope which could have been preserved if Iron hoops had been used. In addition to this, it can be furnished cheaper than Rope. The derangement of labor in the being growing States has reduced the supply of hemp to such an extent as to cause prices to rule unprecedently high indeed a sufficiency for baling a moderate cotton crop, cannot be relied on at any price.

I have arranged for the importation of a large quantity of the best English Iron, and have made arrangements with Messra Chambers & Latting for the sale and delivery of my Ties.

The undersigned, Fire Warden and Fire Inspector of the New Gricans Insurance Companies, are of opinion that the Iron Tie affords greater protection against loss in case of fire than the old style of baling with rope.

J. YOUENES, Fire Warden,
JOHN ADAMS, Fire Inspector. I center in the above, ALFRED BELANGER, Ex Chief Eugineer, Fire Department. SHIP REFUGE, NEW ORLEANS, July 7, 1859. H. Farmann, Eq., Orleans Cotton Press:

Sir. In January last I received from your Press 1089 bales of ectton, of which about 1000 were recompressed and bound with your new "from Tie." I can safely affirm that the cotton so bound was received in better order than it generally comes from the Presses, that it stowed better, and enabled the ship to carry more than on any previous voyage.

The cotton when discharged from the ship in Liverpool, was in better order than the rape bound actton; it is highly preferable for a ground tier, as dampness from the ballast has no effect upon it, for it is well known by practical men that dampness will rot the rope bound. I can confidently recommend your "from Tie," as I took this lot for an experiment and exercisity watched it both in loading and discharging. . Fasemann, Esq , Orleans Cotton Press:

I am Sir, Yours Respectfully, JOHN HOWARD, Master Cotton Factors, Agents for Fassmann's iron Ties and Dealers in Bagging, Rope and Twine,
